*A PARADIGM SHIFT IN LEARNING*

## What is Gravity Golf?

Our founder David Lee was a former PGA Tour professional turned swing research scientist and teacher. David and his team have created a paradigm shift in golf instruction by utilizing neuroscience, physical awareness and cultivating the highest level of sports psychology. Golfers can develop techniques comparable to today's top professionals in a fraction of the time. These techniques trigger the brain's motor programs in the same way a child learns to walk or ride a bicycle. Gravity Golf is an evolution of traditional golf instruction and creates a fun, healthy and stimulating way to further your golf game.

“Gravity” Golf is a technique used by players who power their golf swings primarily with their body mass, and less with their muscle. When you see a powerful swing that appears to be using minimal effort, you're witnessing someone that is working in harmony with Gravity and the natural laws of motion. The physical benefits of the Gravity Golf swing are significant, whether you are a high level athlete, seasoned golfer, or total beginner. This technique provides a tremendous advantage by requiring far less muscle mass to develop a powerful golf swing than other methods.

## What The Pros Say

"David Lee would be the only guy I trust to work on my swing" - **Lee Trevino**

"From what I have seen, I believe the teaching method you have developed could be applied with great benefits to all level of golfers, and I am happy to give my personal endorsement and full support" - **Jack Nicklaus**

"David Lee might be the greatest teacher that ever lived" - **Chi Chi Rodriguez**

## What Our Students Say

From Gravity Golf lessons to Club Champion in just three months! What I learned from taking the 3 day course transformed my game. The focus on balance and effortless golf through simple but effective drills resulted in a 6 point drop in my handicap with winning results. At 69 years old I beat a field of competitive golfers 20 years my junior. If I can do it, then you can too – take the challenge with Gravity Golf lessons it is worth it!

-**Fionnuala Martin**

I am delighted that you are going to continue teaching and promoting Gravity Golf. My game has never been better. Last week, I shot 66 with nine birdies. I owe it all to Gravity Golf.

-**Fred Stone**

I quit golf after 17 years of frustration! Then I met David Lee by accident, in 4 months I was back to shooting 75. Thanks for all the pleasure I have experienced.

-**Rick Nolin**

## Gravity Golf Instruction

The magic of the Gravity Golf system lies in the unique drills and curriculums that David and his son Daniel have developed. These specialized techniques are designed to magnify improprieties in power application, which naturally develops a sense of “feel” for each individual student.

## What We Offer

- Instructor Certifications
- Custom Programs & Curriculums
- Booking Engine for Instructors
- Increased Revenue Streams
- Membership Opportunities

---

## Our Founder

---

- **David Lee**, the developer of the “Gravity” Golf teaching system, is a former PGA touring professional turned swing research scientist and teacher.
- David created a paradigm shift for learning the game whereby players develop much faster by training in a mode of weakness and instability, rather than from a mode of strength and stability.
- The “Gravity” swing creates the most distance and control, is easy on the body, works for men, women, and children, and will allow you to develop to your highest potential level – **we guarantee it!**

## What is a Gravity Golf Instructor?

---

- A person that has the passion for adhering to the most holistic way of learning to work with the natural laws of motion and harnessing energy.
- We look for people that are willing to think outside the box and are always eager to learn something new.
- Fresh perspective and testing the methods of learning is something we encourage greatly for our instructors.
- A Gravity Golf Instructor should be open minded to continued self exploration, consulting with other instructors and using the technologies that are available to prove/quantify what they are studying.

---

## Gravity Golf Instructor Benefits

---

- A certified Gravity Golf Instructor will have the opportunity to teach specialized programs based on their level of certification and demographic needs.
- Each program will have a unique Gravity Golf curriculum to follow giving the instructor the step-by-step tools needed to create maximum benefit for their students
- Instructors will automatically be enrolled in our Brand Ambassador Program, creating the opportunity to share in profits from global instructional programs, signature Gravity Golf products, and online memberships.
- New instructors can enroll in in the GG Marketing Program to receive a custom landing page on the Gravity Golf website and access to students through the Gravity Golf global database.
- New instructors will also have access to branded apparel, customized marketing materials, and teaching manuals

*LEVEL 1 CERTIFICATION PROGRAMS*

## Certification Program

At Gravity Golf we want our certified instructors to be as knowledgeable about every facet of the game as possible. This is why we have broken down the training for certification into 3 Levels, from Fundamentals, to Applied Sciences and Competitive Engagement.

The journey to becoming a Certified Gravity Golf Instructor will take some time and commitment by proving that you are not only proficient as a player, but testing your aptitude of working with various types of students from different backgrounds and abilities. Each Level of instruction will come with different proficiency standards before you will receive your diploma.

At Gravity Golf it is imperative to us to give not only our students the best tools to work with and to make that as easy to share with them from an instructor's standpoint. One of the best ways we have found to do this, is to diversify the way we create our curriculums and programs. Every tool you have at your disposal will help you students get the most out of their investments and allow the instructor to create the type of teaching schedule/income that they desire.

**Welcome to the evolution and revolution of  
golf instruction!**

**Class Duration: 10 days**

**Certification Cost: \$5,000**

The Gravity Golf swing has 4 distinct components that drive all swings regardless of size: the heave, the counterfall, the shoulder drop and the turn. Each aspect of the sequence will become clear through learning the progressive drill sequence laid out in this curriculum. Through learning these techniques and the fundamental drills used to teach them, you will have the tools to help your students create a solid foundation of mechanics that will last for a life time.

Many great athletes, and even some touring golf professionals, can look great making a full swing, but look like a fish out of water hitting putts and delicate shots around the greens. Why players get “yippy,” on the greens, and why they chilly dip and blade chips and pitches, is because of mechanical issues in their power application. When you learn to apply power correctly, the fear of these shots goes away, and your scores will start to come down. Anyone can do this – it only requires a little know-how and proper practice!
